JULY 2012

SEWER LINE CLEAN-OUT AND VIDEOING

Sewer line clean-out and videoing will take place beginning on July 16th and will approximately end on August 3rd. The areas that will be affected are sewer lines west of 300 East between 100 South to 500 North. At times, the pressure created while cleaning the lines can cause water in toilet bowls to gurgle or splash. In order to avoid this back splash, please put an old towel over the toilet, and keep the lid on your toilet closed during the dates that are stated above. Thank you for your cooperation regarding this matter.

WELLSVILLE YOUTH COUNCIL

We are looking for new members for the Wellsville City Youth Council. Youth who are old enough to enter the 8th grade this fall through age 18 are encouraged to join. If you are interested or would like more information, please contact Jeremy or Ruthanne Ellis at (435) 245-5155. Be sure to ask about the date for the kick-off meeting!

MOSQUITO FOGGING SCHEDULE

Adult mosquitoes have increased due to the hot weather spells we've been having, so mosquito fogging will continue in Wellsville. Areas in North Wellsville will be Wednesdays, and areas in South Wellsville will be done on Thursdays. The fogging will take place between the times of 9:00 p.m. and 1:00 a.m. For more information please visit the web site www.cachemosquito.com or contact Terrie Wierenga at 764-6839.

CONCERT ON THE SQUARE

For the perfect Sunday evening activity, the Utah Army Band will be performing on the Wellsville City Square SUNDAY, JULY 22 AT 7:00 P.M. Bring a lawn chair or blanket and come and enjoy listening to this wonderful 60 member band. Everyone is invited to attend the performance.

SUMMER READ-A-THON

Saturday, July 14th is the kick-off of the Summer Read-A-Thon hosted by the Wellsville Foundation. Pick up your pledge packet and join us for fun reading activities and treats at the Wellsville Tabernacle from 9:00 a.m. to 12:00 noon. Bring your blankets and books. Ask your family and neighbors to sponsor your reading by pledging to pay a set amount of money for each minute you read. Keep track of your sponsors and the books you read for four weeks through Saturday, August 11th. If you need more information, please contact Allyson Jeppson at (435) 245-4122.

FALL SOCCER REGISTRATION

Fall soccer registration is going on now. If you are interested, please go to the website southcachesoccer.com for more information or to register. Registration will go through the end of July.

All rehearsals will be held at the LDS Stake Center located at 30 South Center. Please come join us as we celebrate both our country and our beautiful community through music. For more information please contact Ruth P. Maughan at (435) 245-6075.

SUMMER LIBRARY FUN IN HYRUM

July 3rd & 19th-Storytime from 11:30 a.m. to 12:00 p.m.
July 9th & 30th-USU Preschool Storytimes
July 12th & 25th-Make n' Take It Day
July 17th- Young Adult Movie Day 3:00 p.m. - 5:00 p.m.

The Library will be closed on July 4th and July 24th. "Downloadable Day" is coming soon to the library. Watch for further information. Be sure to check for overdue library items. Please return them as quickly as possible to avoid fines.

STORM WATER POLLUTION PREVENTION & LAWN CARE

Here are some things we ought to think about in caring for our lawns to help reduce the impact on storm water pollution:

Yard Trimmings Management. Improper disposal of yard trimmings can lead to increased nutrient levels in runoff. Yard trimmings deposited on street corners may be washed down sewers and result in elevated nutrient loadings to surface waters. Proper management of yard trimmings and home composting can reduce the level of nutrients in runoff and decrease overall runoff volumes through the addition of humus to the soil. Increased levels of humus enhance soil permeability, decrease erodibility, and provide nutrients in a less soluble form than commercial fertilizers. **DO NOT PUT LAWN TRIMMINGS INTO THE CANALS!!**

Use organic, biodegradable, non-toxic pesticides. Use fertilizers or pesticides on the grass, not on driveways, or paved surfaces. Apply only $\frac{1}{4}$ inch of water to soak lawn chemicals into the ground.
